

INSTRUCTIONS FOR USING YOUR Canvas Clips

HARDWARE

4 - CANVAS CLIPS

Note: Don't let things get all scratchy! Place your frame face down on a smooth, flat surface when assembling.

1. Place your canvas into the back of your Frame.
2. Insert the points into the space between Canvas Stretcher and Frame.
3. Press top flat part across the stretcher bar so that it wraps around the Canvas Stretcher and grips the inside edge. Use two or more clips per frame, depending on size.
